### FRANCE DOES NOT ASK FOR CHARITY MILLERAND

PARIS, March 15.—Premier Millerand Monday put aside the German crisis long enough to discuss the relations between France and the United States and the conditions of international credit. He said to a representative of the Associated Press: "France and the United States must continue the close friendship which always has been maintained between the two countries. No fleeting misunderstandings must be allowed to trouble their relations. To that end the sooner all misconceptions are dispelled the better." "Without going into the purely political questions, it appears to me an opportune time to recall now to our friends, the United States, that France is not asking for charity. The greater part of money France borrowed abroad was spent in the common interest of all the civilized countries—a fact which might form the basis of a claim for special consideration, but such is not our intention. "We don't request cancellation of our debts. We only ask time to breathe and to recover our strength after four and a half years of exhausting war. Our propositions are those which any debtor would feel right in making in the normal course of business."

### TURN HAIR DARK WITH SAGE TEA

If Mixed With Sulphur It Darkens So Naturally Nobody Can Tell.  
The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grand. Mother's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage. Nowadays, though, we don't have the troublesome task of gathering the sage and the money, mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Weyl's Sage and Sulphur Compound." It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time, by morning the gray has disappeared, but what delights the ladies with Weyl's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also produces that soft luster and appearance of abundance which is so attractive.

### Be Young In Body, Mind and Looks Despite Your Years

How often you have wished that you could indulge in the strenuous exercise of out door sports with the vigor and enthusiasm of youth! But the end of the week finds you all in—you are tired, listless and lack the energy to go out for a vigorous walk or a round of the links—or any other exercise that requires much physical exertion. Many a man, even in his middle forties, has a vague feeling that he is "getting old"—and right at a time when he should be at his very best physically. And he is growing old, not in the sense that the years are pressing heavily upon him—but in the sense that his vital forces are wasting away faster than Nature replaces the worn out tissues. Thousands—yes millions—of people find themselves in this condition early in life. And there is no excuse for it. You can check that tendency to grow old. You can carry your youth with its joys and enthusiasm into your 70's and 80's. But you must give Nature all the help you can. The best assistance you can find—assistance of a sound, constructive character—is in the use of **LYKO**. **Lyko** is a distinctive preparation scientifically selected in a combination of medicinal ingredients, and there is nothing more invigorating, more strengthening or more rebuilding. Specially beneficial for invalids, over-exhausted and run-down people of all conditions. Get a bottle from your druggist today—tomorrow you will feel better for it.

### Some Seats Left For St. Patrick's Concert By Lambert Murphy

Good seats for the Lambert Murphy concert at the Goodwin institute Wednesday night are still to be had, but they are getting scarce, according to Cortese brothers, who are bringing this popular tenor here. There seems to be a heavy demand from folks who ordinarily do not venture to spend an evening listening to a concert. Apparently they are anticipating some very unusual, and the record of Murphy elsewhere would seem to assure them no disappointment. He graduated from Harvard some eight or nine years ago, but as a soloist in a big Boston church had won for himself wide popularity, as well as in university musical circles. Since entering the concert field he has toured the country from Boston to San Francisco and many rank him with the greatest singers of his time. His program is chosen to please those who prefer ballads and songs with abundant rhythm and tune.
